

THADOMAL SHAHANI ENGINEERING COLLEGE
DEPARTMENT OF INFORMATION TECHNOLOGY
ACADEMIC YEAR 2025-2026

Subject: Python Programming Laboratory (VSEC202)

Division: I

Roll No:

Batch:

Lab Outcomes:

- LO1.** Demonstrate the proficiency in basic python programming or Create and perform various operations on data structures like list, tuple dictionaries and strings.
- LO2.** Apply Control Flow and Functions for efficient coding to solve problems.
- LO3.** Demonstrate proficiency in handling file operations, managing exceptions, and developing Python Packages and executable files for modular programming.
- LO4.** Illustrate the concept of Object-Oriented Programming used in python.
- LO5.** Design Graphical User Interface (GUI) applications, utilizing appropriate Python libraries to create user-friendly interfaces.
- LO6.** Investigate and apply popular python libraries to conduct efficient data handling tasks.

PROGRAM	TITLE	LO MAPPED	PAGE NO.	DATE	SIGN
1	Basics of Python	LO1		14/01/26	
2	Control Structure	LO2		23/01/26	
3	Built in Data-Types	LO1		30/01/26	
4	File Handling	LO3		06/02/26	
5	Object Oriented Programming	LO4		13/02/26	
6	Exception Handling	LO3		20/02/26	
7	Arrays	LO6		20/02/26	
8	Graphical User Interface	LO5		27/02/26	
9	Pandas and Matplotlib	LO6		20/03/26	
10	Pattern Matching	LO5		23/03/26
